

***IN THE NAME OF GOD***

**WE ARE SABACO**

We are an aviation based company mostly concentrated in designing and manufacturing jet engine special tools and aircraft component special tools with the youngest and over qualified engineers.

Designing and manufacturing

**Jet Engine and Aircraft Component Special Tools**

(Original or Customize According to Customer Orders)

With Complete Technical Documents and all Kind of  
Consultation for Overhaul

We Officially Started Our Business In 2020

We Have Successfully Fulfill More Than 100 Projects  
and Delivered More Than 1000 Special Tools  
to More Than 10 (MRO) and Airlines.

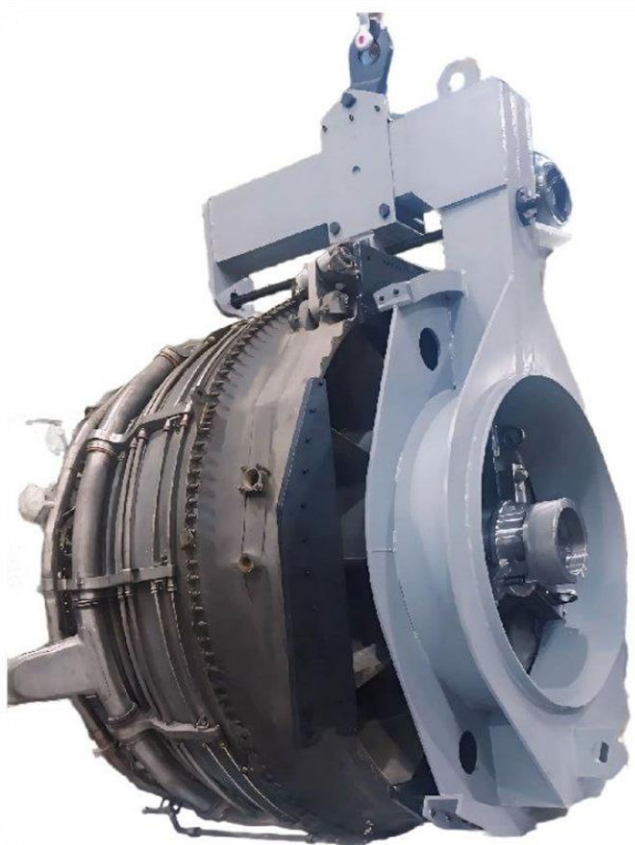

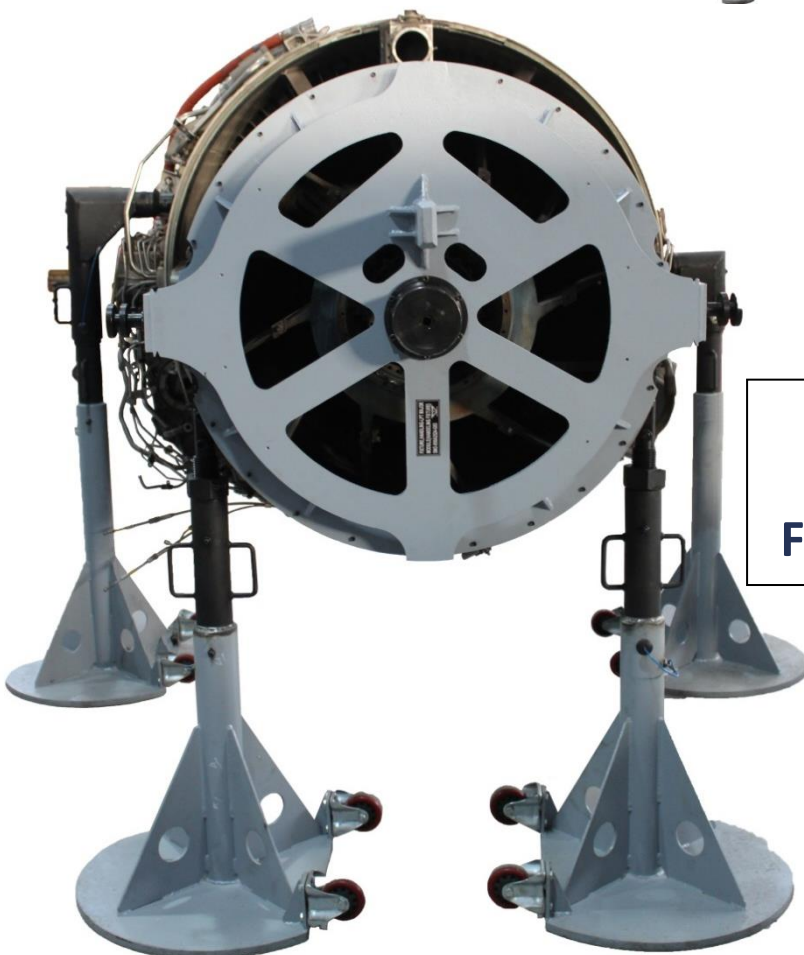

## Categories:

1. Jet engine special tools for complete overhaul procedures including DISASSEMBLY, CHECK, REPAIR, TEST, ASSEMBLY.

## Jet Engine Projects:

- CFM56 SERIES
- PW4000SERIES
- PW100 SERIES
- TRENTT500 SERIES
- V2500 SERIES
- LF500 SERIES
- JT8D SERIES
- CF6 SERIES
- TFE731 SERIES
- CF34 SERIES

**856A2524G03**  
**FIXTURE HANDLING LPT**

**IAE 1F 10058  
FIXTURE HANDLING LPT**

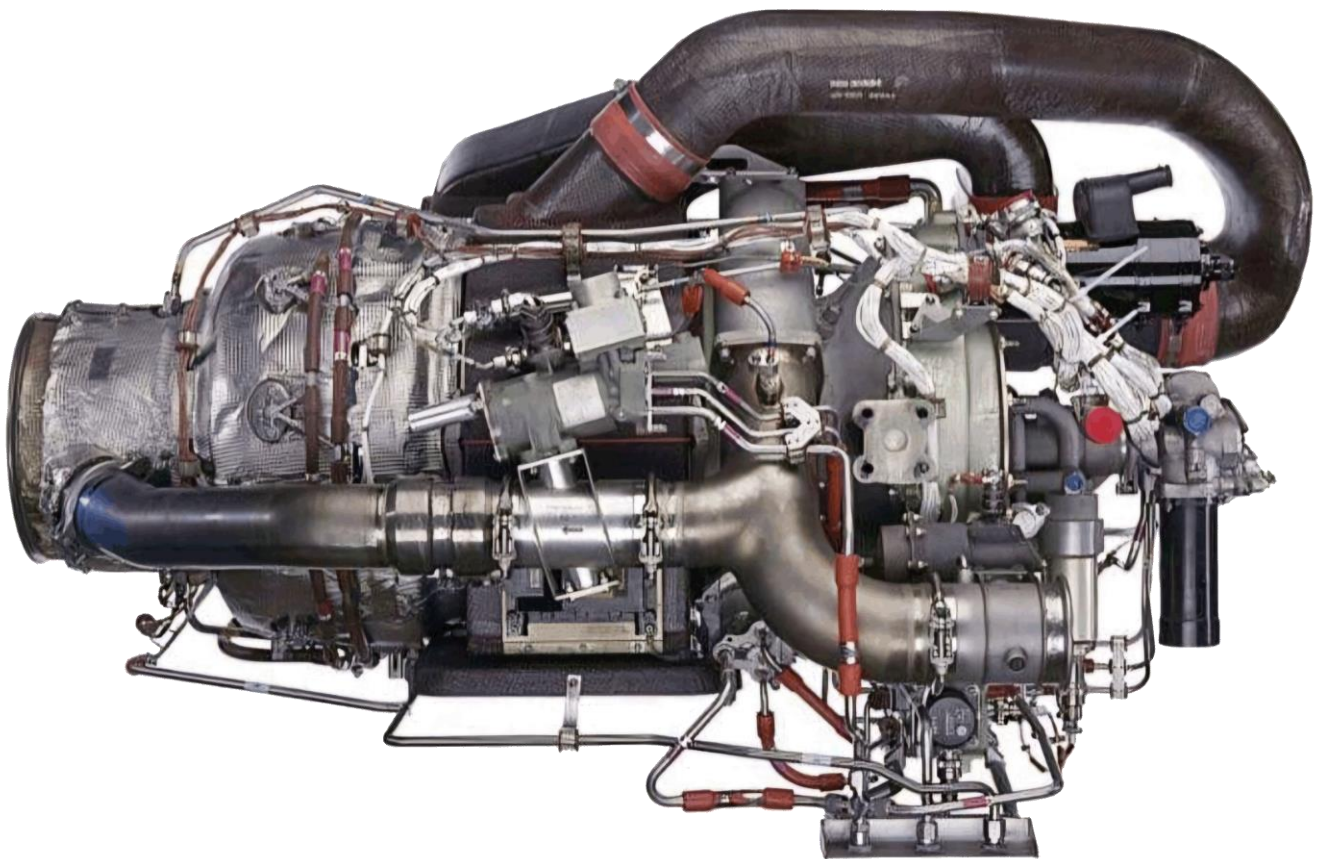

2. The original APU special tools and fixtures coming with all the required educational info and consultations to overhaul and disassemble these power units for the airplanes like B737, A320:

- HONEY WELL GTCP 36
- HONEY WELL GTCP 85
- HONEY WELL 131
- APS 3200

### 3. Design and Manufacturing of all Special Tools for Hydraulic and Pneumatic Systems:

**RATCHET  
FIXTURE  
SABA-5000T55**

#### 4. Design and Manufacturing of all Special Tools for Landing-Gear and Actuator Systems:

**MAIN LANDING GEAR  
AXLE NUT WRNCH  
SABA-F80168-3**

**MAIN L/G TRUNION  
LINK SOCKET-WRENCH  
SABA-ST2580-202**

**NLG AXLE  
NUT WRNCH  
SABA-F80168**

---

## 5. Design and Manufacturing of all Special Tools for Fixtures, Engine Component Parts and Fuselage:

---

**TURN OVER STAND**  
**SABA-334990**

We Create Certitude Because  
We Care About Your Safety

## 6. Design and Manufacturing of all Kinds of Test Benches and Testers Like Hydraulic and Fuel Test Benches:

**WRENCH, NUT-CENTER VENT  
TUBE SLEEVE**

**SABA-856A3268G02**

**WRENCH-NO.5 BEARING  
INNER RACE UNIT**

**SABA-856A3269G03**

## 7. The ability to design and manufacturing of all type of ground tools and stands all different types of jacks:

### Custom Airplane Jacks:

- MLG
- NLG
- AXLE JACK
- WINGS & TAIL JACK
- TRIPOD JACK

## 8. Design and Manufacturing of all Hanger and Airport Tools:

## 9. Design and manufacturing of all kinds of arbors and fixtures for the purpose of Balancing:

---

## SPANNER WRENCH

IAE1J12260

IACI-ENG

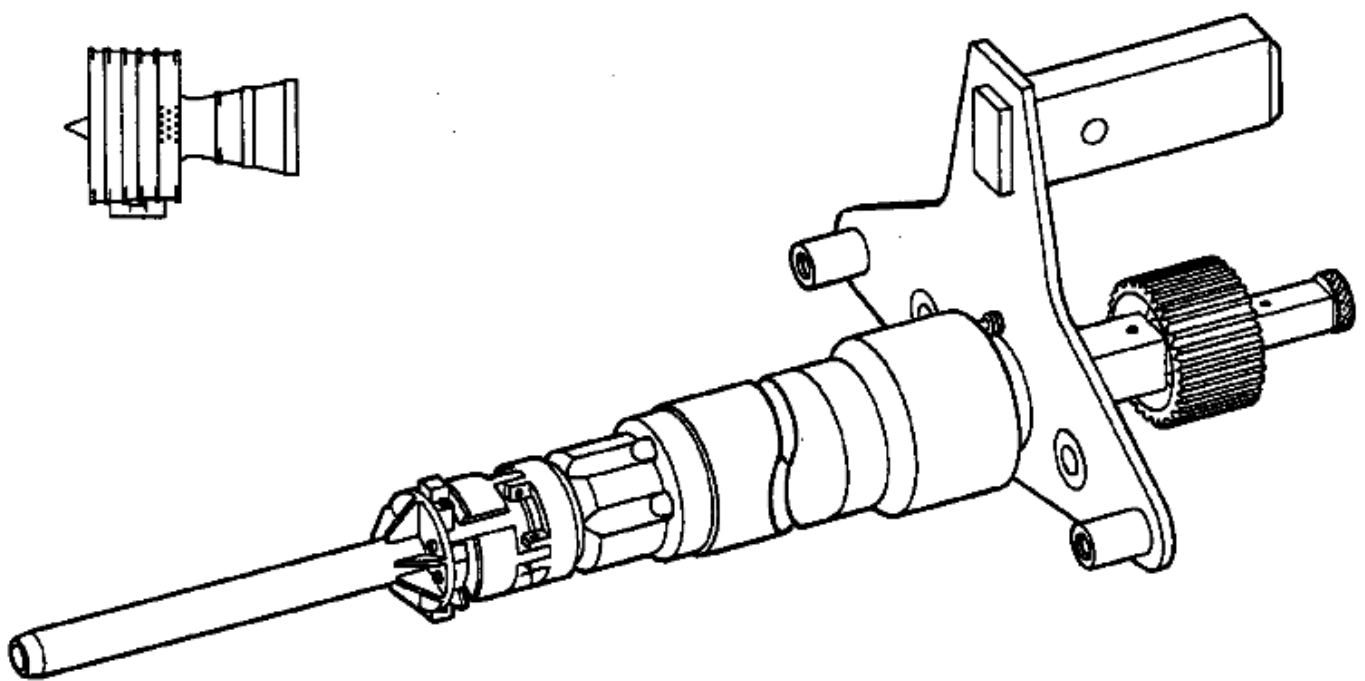

## 10. All Kinds of Services for Inspect and Repair Procedures:

**856A1000**

---

# "OUR VALUES"

---

Safety and Security  
Integrity and Honesty

Reliability and Validity  
Collaboration and Respect

Passion and Dedication

According to the highest international standards  
(ISO, DIN, JIS, AMS)

All of our special tools come with its final book including the licenses of engineering geometric dimension sketches, the coating info, material analyze, software analyze of the structure, pressure and tensile strength tests, dead load test, welding test and one year guaranty which all the tools with their part numbers hacked will be delivered into their safe and strong wooden packaging.

## At The End

- Our company is vowed to work always by some rules to reach its pictured elysuim.
- The first fundamental priority is what the customer needs.
- Our quality is worldwide no matter working small or big.
- Lowest profit possible, no company can compete. If so, we start negotiating to keep our record of being the lowest.
- Lowest time possible is our obsession, not affecting the quality no doubt.
- Always open to any offer, comments and suggestions.
- Trustworthiness is what we keep sacred and seek.
- What we do is to guarantee the safety and excellency of your SABA
